To Whom It May Concern:

Dramanon

Recently Dramanon has completed a programme of training for 700 of our staff. This was a repeat of training which Dramanon designed and provided for us last autumn and, like last year, it was a great success.

Dramanon uses actors to roleplay situations which the participants can comment on, and then instruct the actors towards achieving a preferred outcome. This method gets the learning points across powerfully and quickly, enabling a large firm like ours to expose large numbers of individuals to useful training. Dramanon brings energy and humour to the project, and the actors give a fresh and very professional feel to the sessions, despite the fact that they do the same session many times.

I warmly recommend Dramanon to you, and say without hesitation that you will receive a polished and sensitive product.
